About This Game

“The sky was a maelstrom of exploding bombers, twisting tracers, flaming parachutes, and Robert’s own burning fighter... then his engine quit!”

FTSOC, short for **FLYING TIGERS: SHADOWS OVER CHINA**, is an air-combat action game based on the true events of America’s secret volunteer squadrons that defended China against Japan in the China-Burma-India theatre of World War 2.

Experience rarely depicted air-battles as you take on the role of headstrong fighter pilots, self-sacrificing transport navigators, and daring bomber crews and gunners of the AVG, the RAF, and the USAAF to repel the onslaught of the Japanese war machine. Dogfight skilled enemy aces using “hit and run” tactics, carry out breakaway air-strikes behind enemy lines, and take part in the defense of China’s critical supply-routes, from Rangoon up the Burma road, and across the deadly Himalayan "Hump".

FLYING TIGERS: SHADOWS OVER CHINA recreates some of the most legendary events of the China-Burma-India theatre. A decent collection of historical missions are included, such as the Japanese Christmas-raids on Rangoon, the AVG's first combat over Kunming, the Battle of the Salween Gorge, "Hump" transport missions over the Himalayas, flight-training at Kyedaw in Toungoo, the surprise Invasion of Malaya, and many more.

- **RARELY DEPICTED AIR-BATTLES OF WORLD WAR 2**
Action-packed campaign recreates the clandestine operations of the American Volunteer Group in fighter, bomber, gunner, reconnaissance, torpedo, and night missions.
- **APPROACHABLE TAKE ON AIR-COMBAT**
Features *TrazerTime™* slow-motion precision firing, arcade-like combat maneuvers, sim-style pitch & roll controls, moody weathers (including thunderous monsoons, beautiful sunsets and misty dawns), 20+ Allied and Japanese planes, adjustable mouse & keyboard, gamepad, and flightstick controls, and more!
- **MULTIPLAYER FOR UP TO 16 PLAYERS**
Steam leaderboards eternalize players' online rankings across five battle modes! Coordinate devastating air-attacks in *TEAM DOGFIGHT* while providing cover for your comrades, outdo all enemies using powerful rocket weaponry in *ROCKET BATTLE VS*, or take to the skies to "Capture the Flag" in the *FLAGBUSTERS* mode.
- **PAY ONCE AND PLAY**
No micro-transactions or F2P-elements -- for a single purchase, you'll get the full, stand-alone experience -- with unrestricted multiplayer!
- **FLY IN COCKPIT OR THIRD-PERSON MODE**
Soar through the skies of Southeast Asia in third-person or cockpit view in a variety of American, British, Russian/Chinese, and Japanese aircraft.
- **STRIKING RENDITION OF THE FAR EAST**
Faithful environments, beautiful graphics, booming sound effects and an epic-orchestral soundtrack create a lasting impression of the China-Burma-India theatre.

Recurring problems with crashes somehow lessen the fun, but in itself this is the best casual fighter plane simulation I have ever played, especially in air combat mode.. As long as you are not expecting a flight sim you will enjoy this game. An Arcade experience with a capital A. The physics are easy, the gunnery is easy the story is fun and the combat can be satisfying. Graphics are great, the cockpits notwithstanding. As I said this is not a sim. The cockpits are not usable nor very immersive but you have the choice.

Sound is great, too.

It was on my wishlist for a long time and I got it on sale. Very glad I did.. The game is good and I would recommend it on sale without a doubt.

However the last two levels are beyond awful and it's a weak conclusion to a solid premise for a WWII game focusing on the US helping China fight the Japanese in the early years of the war.

It can take a lot of fiddling with the settings before you get a control scheme you like, graphics are decent though and the game ran fairly well for me.

Flying Tigers falls short just before the landing, but it's not a bad game by any means
